

Laporan Penanganan Gangguan Customer M@xi-line

Deskripsi Pekerjaan	Dokumentasi
Isu Masalah yang dilaporkan : - Koneksi Internet Starlink Down. Hasil Pengecekan di Lokasi dan Penanganan : - Saat di cek di lokasi ternyata colokan dari kabel power ke arah router starlink tidak kencang. Dapat diketahui dari lampu indikator router starlink yang tidak nyala. - Saat kabel power arah router starlink di kencangkan indikator di router starlink menyala dan starlink sudah menyala.	Isu Masalah  The screenshot shows a web-based service report form. On the left is a sidebar menu with options like Dashboard, Coverage, Pendaftaran, Pelanggan, Finance & Invoice, Billing, Invoice, Admin, Diskon, Term of Services, and User Pelanggan. The main form area has fields for 'Jenis Laporan' (Teknis), 'Subyek' (Koneksi internet Starlink Down), 'Isi' (a description of the issue), 'PIC' (Andhi Yahya), and a 'Status Laporan' dropdown set to 'Diproses'. On the right, there's a 'Kunjungan' (Visit) section with a date of 15 April 2026 and a time of 08:00. It includes a 'Pilih respon' dropdown, a date field (14-04-2026), a time field (18:14), a 'Tulis catatan...' text area, and a 'Choose Files' section with a 'Respon' button. Pengecekan lokasi  The first photograph shows a white Starlink router sitting on a wooden surface. A black power cable is plugged into the back of the router. The second photograph is a close-up of the back of the router, showing the power port and the connected cable. Indikator Router Starlink nyala  The photograph shows the front of the Starlink router. A red arrow points to the power indicator light, which is now illuminated, indicating that the router is powered on.

Test Jaringan Starlink :

- Saat dilakukan pengecekan lewat akun starlink terdeteksi aman, tidak ada halangan dan starlink pada posisi yang baik
- Saat dilakukan pengetesatan SSID juga sudah terhubung dan sudah bisa digunakan.
